BUFFING & POLISH

K-1500

Utilizing the most uniform abrasive minerals available and state of the art coating technology, Tolex system achieves finishes more even and shallow than any other dry sanding system in similar finish. Tolex's highly effective dry lubrication process allows minimum clogging, thus increasing sanding life and productivity.

Tolex Super-Tack (Flexible Sanding)

In addition to the convenience of use, its extreme flexibility allows Super Tolex to sand both the inside valleys and peaks of orange peel with minimum removal.

Tolex Stickon (Block Sanding)

Topcoat sanding will be faster and more efficient as dust nibs are easily identified and located in the first pass of light sanding with Tolex. These imperfections are then quickly and effectively removed by continued sanding on needed areas only. Therefore, over-sanding as well as overlooked dust nibs can be easily avoided.
